A FAIR CROWD ATTENDS MEET

BRECKENRIDGE, ST. JOSEPH AND MARYVILLE HAVE MOST POINTS.

IMPORTANT CHANGES IN H. S. ASSOCIATION

Preliminary Rules, Election of Officers, and Entrance Fees Up For Discussion.

At 3:30 o'clock Breckenridge, St. Joseph and Maryville were the three leading schools in the track scores. Breckenridge had 16 points; St. Joseph had 7 points, and Maryville had 5 and 1-3 points.

A fair sized crowd is attending the Northwest Missouri Inter-High School track meet upon the Normal field this afternoon. The grandstands are fairly well filled and a glance over the crowd after a week of rains and muddy roads makes one consider what might have been.

The track is in good condition in spite of the rains. For the dashes it is holding out well, but for the long distance runs a little difficulty is anticipated. The events are under the management of Walter Hanson, the Normal coach.

The events, which had been decided at 3 o'clock are:

100-yard dash, preliminaries—First heat, Yehle of Maryville and Lewis of Bethany; second heat, Watson, St. Joseph Central and Castle of Savannah; third heat, Sellers of St. Joseph and Medley of Plattsburg.

100-yard dash, finals—Sellers, St. Joseph, first; Medley, Plattsburg, second; Johnson, Ridgeway, third and Rea, Savannah, fourth. Time, 11 flat.

Shot put—Royston, Pattonsburg, first; Layman, Bethany, second; Trosper, Breckenridge, third and Booth, Cainsville, fourth. Distance, 38 ft. 6¼ in.

120-yard high hurdles—preliminaries. First heat, Cash of St. Joseph and Glick of Breckenridge; second heat, Castle, Savannah, and V. Saville, Grant City.

120-yard high hurdles, finals—Castle, Savannah, first; Glick, Breckenridge, second; V. Saville, Grant City, third. Cash of St. Joseph Central was second but was disqualified because he knocked down four hurdles.

Discus throw—Fries, Mound City, first; Trosper, Breckenridge, second; Bealls, St. Joseph, third, and York, New Hampton, fourth. Distance, 96 ft. 2½ in.

Pole vault, final—Glick and McPeek of Breckenridge tied for first place; Ralph Yehle, Maryville third, and Christenson, Bolckow, Booth of Cainsville, E. Yehle, Maryville tied for fourth. Height ,10 ft. 4 in.

Results of Board Meeting.

The executive committee of the Northwest Missouri High School association met this morning at the State Normal school in their annual meeting.

The first business taken up was the question of qualification in the preliminaries. A motion was passed not to allow any school to qualify more than one man for the finals in any track event; and if any school wins first and second place in the preliminaries

Track Meet Notes

Grant City's track team consists of two brothers of Chauncey Saville, who set a record of 2 min. 9 4-5 sec. in the half mile run in 1914. Chauncey is now captain of the Normal track team.

* * *

The schools who are not among "those present" are: St. Joseph Benton, Chillicothe, Trenton, Liberty, Skidmore and Maysville.

* * *

Two hundred visitors got off the noon Burlington train, from St. Joseph, Savannah and other southern points.

* * *

Eighteen schools are taking part in the track events on the Normal field today. They are:

Class A—St. Joseph Central.

Class B—Bethany, Maryville, Mound City, Pattonsburg, Savannah, Tarkio, and Plattsburg.

Class C—Bolckow, Breckenridge, Gallatin, Guilford, Maitland, New Hampton, Ridgeway, Rosendale and Cainsville.

* * *

The track contestants and the school superintendents were among the guests at the May morning breakfast given by the Y. M. C. A. in the Normal library this morning.

* * *

A checking system is in force out at the track today for the purpose of enabling the contestants to deposit their valuables in a safe place. Hitherto, much trouble has been caused by the lack of a place to check belongings.

* * *

An attraction which vies with the track meet is the sight of Coach L. J. Schultz of Maryville and his twin brother Leo C. Schultz, athletic coach at Richmond, Mo. The resemblance of the two is remarkable. An amusing incident is related to have happened in a local barber shop. Mr. Schultz of Maryville, who is called "Prof." by his friends, went into the barber shop for a shave. The barber knew him at once and said, "Well, what will you have, Prof?" A few minutes later, after Schultz No. 1 had departed, the twin brother appeared in the same shop. The barbers looked at each other in amazement. Finally one of them recovered himself enough to say, "Well, what do you want this time, Prof?"

* * *

The track meet has lost one of its most picturesque characters through the death of Col. W. T. Jenkins, former editor of the Platte City Landmark. Col. Jenkins always headed a delegation from Platte City to the literary contests and track meet. He was present at every meet from the time it was first established.

* * *

Coach Hanson met the track men in the gymnasium this morning and gave out the numbers. After this all contestants attended the meeting of the executive board.

Gene Haddon and Pete Lewis were arrested yesterday by Sheriff Dowden on a charge of gaming. Both of them gave bond for appearance in court May 17. Haddon was tried at the last term of court on a charge of violating the local option law and the jury failed to agree.

J. K. Sawyers, who has been attending Muskingum College at New Concord, O., returned home this morning on account of the illness of his mother.

WILL RAISE $300

COMMERCIAL CLUB TO FINANCE COMMUNITY CANNING CENTER.

WOMEN TO CO-OPERATE

Miss Hettie Anthony Will Seek Aid of Women's Clubs to Take Over Management of Center.

About $300 will be raised immediately for the purpose of buying equipment for the food canning center which will shortly be established in Maryville.

This was decided at a meeting of the Factory and Community Interest committee consisting of Harvey L. Haines, chairman; H. L. Raines, and Will Phares, and of the publicity committee, consisting of Mr. Haines, chairman, Ed Keck and Albert Kuchs, at the Commercial club rooms yesterday afternoon.

The committees after conferring with Miss Hettie Anthony, head of the Home Economics department at the State Normal school, decided that a canning center in Maryville would be both advantageous and necessary to the proper conservation of food in the war campaign, and they voted to collect the money and to establish the center as soon as possible.

Miss Anthony's plan is to interest the women's clubs of the city in the movement and to have them take charge of the center. The Commercial club for its part will furnish the equipment and financial support.

The management of the canning center as well as its location are matters that will have to be settled later. Miss Anthony hopes to stimulate the necessary amount of interest and to put the scheme through while the necessity for the preservation of early fruits and vegetables is pressing.

A new and perfected process of canning will be used at the canning center and it is estimated that twelve women can preserve 1,000 jars of fruit in a day. Each woman may bring her fruit or vegetables and her cans to the center and instructors will oversee the work and assist in the canning

The plans as yet are not definite, the whole affair depending upon the amount of enthusiasm shown by the women of the various clubs.

RICHARDSON RE-ELECTED

Will Serve as Head of State Normal School for Next Biennial Period —Board Reorganizes.

President Ira Richardson of the State Normal school was re-elected for the next biennial period at the meeting of the Board of Regents held at the Normal yesterday afternoon. President Richardson has already served three years as president of the school and his re-election is the highest kind of a tribute to his executive ability and to his success as head of the Normal school.

The reorganization of the board of Regents at its first meeting since the new members of the board were chosen by Governor Gardner, was perfected, and all of the former officers, excepting the treasurer were re-elected. They are as follows: President, W. A. Blagg; vice-president, George N. Gromer, Pattonsburg; secretary, W. A. Rickenbrode, and treasurer, J. D. Richey of the Nodaway Valley Bank.

The members of the Board of Regents present at the meeting yesterday afternoon were: W .A. Blagg, Maryville; W. H. Weightman, Mound City; Charles L. Mosley, Bethany, and George N. Gromer, Pattonsburg, and Uel Lamkin of Jefferson City, state superintendent of schools.

WORK IN CONGRESS

CONSIDERATION OF WAR MEASURES OCCUPIES STATESMEN.

THE RECENT ARMY BILL

Mr. Van Cleve Enumerates Forces That Were Behind the Conscription Measure.

(By W. C. Van Cleve)

Washington, D. C., May 2.—The consideration of war measures continues in Congress. They are numerous already and more are coming. There are bills to raise an army, bills to facilitate the work of the navy in various ways, bills to authorize the shipping board to build food carrying ships by the scores, a bill called the espionage bill, to limit the publication of information and criticism during the war, bills to regulate and fix the prices of foodstuffs, bills authorizing the President to take over and operate railroads, telegraph and telephone lines and so on.

* * *

The so-called army bill has passed both House and Senate in different form and must now go to conference before the final law will be worked out. The Senate passed the war department bill with some changes and the House passed the bill reported from the committee on military affairs with amendments. By a vote of 313 to 109 the volunteer provision was stricken from the House committee bill and conscription was inserted in lieu thereof. Many members who had pleaded eloquently in the cloak rooms for the volunteer system and had vigorously applauded volunteer speeches during the debates, climbed in the band wagon when they found conscription was sure to carry and voted for it. A number of them openly admitted that they had voted against their convictions.

They can't be blamed for that altogether. Most members want to retain their seats in Congress and the remarkable campaign of the propagandists was what would be termed on the battle front "a withering fire." it was too hot for them. Big newspapers carried full page advertisements, double leaded editorials and scare heads. Thousands of letters and telegrams were received each day, some demanding "universal training," some "universal service" and many of them threatening and abusive.

The bill which men so zealously espoused, though they had never seen it, is entitled "a bill to authorize the President to increase temporarily the military establishment of the United States." It provides no permanent policy and has nothing to do with universal training or universal service beyond the duration of this war. As proposed by the war department, the bill provided that only those be-

About Vehicle Ordinance.

A petition requesting the council to re-consider the vehicle tax ordinance and to permit the petitioners an opportunity to be heard on the ordinance was presented to the council but no one appeared at the meeting last night to voice their opinion. The petition stated that the ordinance was unjust. The ordinance will now stand and the tags were ordered last night. Only $11 of this tax has been collected so far.

The city attorney was ordered to draw an ordinance for a sidewalk on East side of Main street from 6th to Park avenue.

A sidewalk ordinance was passed ordering a sidewalk on the north side of Franklin street between Main and Market streets.

A number of other sidewalk ordinances will come up at the next meeting of the council.

tween the ages of nineteen and twenty-five should be liable to conscription. Neither the Senate nor the House would stand for that. The Senate changed the age limits to twenty-one and twenty-seven and the House changed the age limits to twenty-one and forty.

The big banks, the financially controlled newspapers, the railroads, the munition makers, the copper and coal mine operators and the numerous industrial institutions urged the bill as originally drawn with a fervor almost violent. It enabled them to continue their business without disturbance.

With only school boys and young fellows to be drawn upon, big business had little to fear.

There is a considerable difference between the House and Senate bills on this score yet which must be settled before the bill can become a law. It may result in a compromise fixing the ages at twenty-one to thirty-five although the House membership was almost unanimous in demanding the forty year limit.

Among other important differences in the two bills passed is a provision in the Senate bill providing that not to exceed four infantry divisions may be recruited by volunteer enlistment, provided that there shall be no enlistments in these forces of men under the age of twenty-five. This provision in the Senate bill is for the benefit of Col. Roosevelt and other distinguished gentlemen who desire to raise a force of volunteers for service in France. The House refused to accept such an amendment. Another provision in the Senate bill authorizes the President to fix such regulations as he may see fit for the prohibition of the sale and use of liquor and prohibits the establishment of immoral resorts near training camps.

The House very wisely struck from the bill the appropriating clause authorizing the Secretary of War to expend in his discretion the stupendous sum of $3,000,000,000 to carry into effect the provisions of the bill. The appropriation has been made in a separate bill passed today in which specific amounts are designated for specific purposes. In doing so, a little matter of about $200,000,000 was deducted from the original amount called for as unnecessary. The proposal to give blanket authority to any one official to expend three billion dollars was beyond the limit of the most loyal.

Under the provisions of both Senate and House bills authority is given to recruit both the regular army and the national guard by volunteers provided that "whenever the President decides that they can not effectually be so raised or maintained, then by selective draft." The other forces are to be "raised and maintained by the selective draft exclusively." This of course does not apply to Col. Roosevelt's volunteer force.

* * *

The word, "Selective" though a very simple word is one rather indefinite in connection with the draft. Numerous efforts were made to define it in specific terms but about the best definition heard was that "selective means selective." It suggests a number of exemptions to be determined by the President as he may deem desirable. The bill authorizes a number of exemptions including members of Congress and the executive and legislative officers of both federal and state governments; certain religious organizations whose creed forbid participation in war; regular or duly ordained ministers of religion. He is also authorized to exclude from the draft "for partial military service only" certain Government employees, such as railway mail clerks, custom house clerks and workers employed in armories, arsenals and navy yards, and other persons engaged in industries including agriculture.

The original purpose of the war department was to effect a nation-wide registration or census of those of conscript liability which the department estimated would require several months. It is now stated, however, that, when the bill becomes a law, the President will designate a day by proclamation on which all those of the ages finally agreed upon must present themselves at the places designated and register their names, addresses, etc. It is now said that this is to be done at the various post offices and that the postmasters will be supplied with cards for the purpose. The publication of the proclamation will be considered sufficient notice to all and those who shall wilfully fail or refuse to so present themselves for registration will be subject to fine and imprisonment.

The House bill also carries a provision prohibiting the payment of bounties and the furnishing of substitutes.

HOME BOYS LOSE

BEARCATS GO DOWN TO DEFEAT TO WILLIAM JEWELL 15-2.

SCORE 2 IN THE NINTH

Jewell Made 12 Hits — Todd of the Normal Made Star Play of the Game.

The Maryville Normal "Tombstones" formerly the Bearcats went down to an ignominious defeat at the hands of William Jewell College yesterday afternoon in what was scheduled as a baseball game. It proved to be a track meet, with the Jewellites doing most of the running. The final score was 15-2 in favor of the visitors.

Incidentally Arthur Clinton McKinney, Jewell's star boxman, turned in a no-hit game. The two runs scored off his delivery came as the result of errors on the part of his teammates and were entirely unearned. He gave only two walks and hit two batsmen. He also struck out twenty-two men, almost equalling his world's record performance of twenty-five struck-out batsmen in a nine-inning game.

Contest For One Inning.

For one inning the game looked like it might be a real contest. Jewell got two men on bases in their half of the inning but failed to score. In the home half, Wagers opened by striking out, a performance that during the rest of the game became contagious, also monotonous. Van Cleve drew a pass and went to second when Ferguson was hit by a pitched ball. Bird laid down a dinky little roller in the direction of the pitcher's box which McKinney fumbled long enough for all hands to be safe. With the bases full the Jewell catcher threw the ball to center field and Van Cleve and Ferguson scored. This constituted all the run-making for Maryville.

In the next inning the visitors got the two runs back with four more to spare. They got one more in the third, five in the fifth, two in the eighth, and one in the ninth.

As For Maryville.

As for Maryville there was nothing for the crowd to get excited over. They succeeded in getting two men on in the ninth but the rally was short-lived. As a rule the men carried bats with them to the plate but they appeared to be for ornamental or decorative purposes. Only in one inning did less than two men strike out and in five innings the entire side was retired on strikes.

Of the work in the field of the "Tombstones" (so christened because of their general lifelessness), the less said the better. The infield was woefully off color and the clean fielding of a ball was the exception rather than the rule. In justice to them, however, let it be said that the unfamiliar ground made fielding very difficult. The writer counted thirteen stolen bases for Jewell, but he is human and may have missed some.

One Bright Spot in Game.

One bright spot of the game was the fielding of the Normal outfield. All three men turned in good catches. Todd made the star play of the game with a running catch of a liner to left center.

Jewell made twelve hits, five of them of the scratch variety. The other sad details we omit. Comparison of the box scores of the two teams is odious.

The batting orders:

Maryville—Wagers 2b, Van Cleve, p, Ferguson ss, Bird 3b, Allison rf, Sawyers c, Garard lf, Todd cf, Scarlett 1b. Corum was substituted for Wagers in the ninth.

William Jewell—Allen lf, Lee 2b, Bell 1b, Evans cf, Matheney ss, Finney c, Billings 3b, Hubbard rf, McKinney, p.

WHO WILL LEAD TROOPS?

Men of Executive Ability are Needed Right Now for the First of the Volunteer Officers.

Now that conscription is a certainty and will soon be enforced, it is up to the people of this city to decide whether their troops will be led by their own citizens or by officers from other cities or other states.

It is planned now that troops from different localities will be commanded by officers from their own city. It is up to the men of this city now to see that there is a sufficient number of officers trained to meet the demand. Are we going to have someone from another city or from another state leading our troops?

A camp will be held nearby to fit these men to be officers. All expense incident to attendance will be borne by the government.

A college education is valuable but is not essential. Any man with experience in executive positions is wanted, whether at the head of a business or at the head of an important department in a business.

Such men are needed and are needed especially right now for the first volunteer officers.

Applications are being received by mail or in person at Room 502, Military Training Camp Association, at the War Department, Chicago.

Applicants may enter any day from May 8 to May 14.

Recruiting officer for reserve corps in the town of Maryville is in charge of Roy Curfman. He will explain all details.

Who are the men who are going to lead the troops of our city?

Will Hold Presbyterian Day.

Presbyterian Day in connection with Parents Day will be held at the First Presbyterian church Sunday, May 13. It is the aim of the pastor to have every Presbyterian present at the morning and Sunday school services of the church, and especial services will be held at both the Sunday school and the church hours.

Harold Selecman of Ottumwa, Ia., is visiting over Sunday with his mother, Mrs. Lillian I. Selecman.

NEW PERFECTION OIL COOK STOVE

With the Long Blue Chimney

Bakes your cakes evenly. You turn the flame high and make an omelet in ten minutes or—very low and bake a roast for hours. The heat stays at just the temperature you like. You don't need to watch it.

Hot bread in the morning. That's the time you will like the New Perfection. The oven takes ten minutes to heat through. Hot rolls for breakfast or bake your bacon. Don't make an extra big fire as on a coal or wood range, and wait, and wait for it to heat.

Turn it right off when you are through. Saturday baking doesn't heat the kitchen. The long blue chimney concentrates the heat. Keeps you cool and the dinner boiling. It keeps an even temperature; it keeps clean and the kitchen clean. It keeps fuel cost down, too. Saves one-third. Easy to fill; easy to light; easy to rewick.

Look for triangle trade-mark. Ask your dealer to demonstrate this stove.

A FAIR CROWD ATTENDING MEET

(Continued from Page 1.)

inary heats, one of its men shall be eliminated and the next two schools in order shall qualify except in the hurdles, where only one other school shall qualify. This measure was decided on for the purpose of keeping one school from taking first and second places in any event.

Want Closer Organization.

A closer organization of the High schools of the district for purposes of co-operation in athletic and literary events was also discussed. For this reason, the organization was re-arranged. It was decided that the terms of all officers holding over be closed and that a president, vice-president, secretary, treasurer, and three members of the Board of Control be elected for one, two, and three years respectively. The president and secretary are to be ex-officio members of the board of control.

Membership Fees.

The question of membership fees was then taken up. A motion carried to charge a permanent entrance fee of $2 for first class schools, $1.50 for second class schools, and $1 for third class schools. An annual fee of 25 cents will also be charged each school for each of the events, football, basketball, baseball, literary contests, and track in which such a school shall contest. And finally, that the State Normal school of Maryville shall pay 25 cents annually for each school in the association.

After some discussion Ridgeway was awarded the Class C cup instead of Breckenridge and the change will be made without delay. Some mistake in counting points resulted in this change.

This Year's Officers.

In accordance with the new rules for the election of officers the following were chosen for the coming year: President, Superintendent Duncan of New Hampton; vice-president, Supt. P. C. Calloway, Mound City; secretary, Supt. Daugherty, of Bethany; and treasurer, Prof. R. M. Magee of Maryville.

The members of the Board of Control who will act with the president and secretary of the organization are: Supt. G. H. Beasly, Liberty, for three years; Supt. Ross of Pattonsburg for two years, and Supt. Boyd of Albany for one year.

WILL PRESENT "PETER PAN"

Miss Caryl Cook of Boone, Ia., a Noted Reader Will Appear at the Christian Church May 10.

On Thursday evening, May 10, the people of Maryville are to enjoy a rare treat in the presentation of the charming play, "Peter Pan," by Miss Caryl Cook, at the First Christian church. Miss Cook, whose home is in Boone, Ia., is a recognized success in dramatic circles, having spent many years in study, for several years a protegee of Madam Ewine of New York City, who is one of the finest dramatic instructors in America.

Miss Cook portrays such amazing versatility in presenting the characters of the "Pirate King," "Peter" and "Wendy" that her entire audience seems to be transported into Fairyland. She has appeared in the Art Institute, Chicago, and Carnegie Hall in New York City. The operatic score, with its bewitching melodies, will be played during the reading.

A comment from Mary B. Cleveland, executive secretary, the Civic Forum, New York City, follows.

I have seen Maude Adams in her famous role many times, and had always believed that the bewitching charm of Peter Pan was exclusively Miss Adams' creation, but now I know that you too have discovered Peter's secret of "eternal youth."

In your transmission from the little Spirit Boy to Captain Hook, then to Wendy, all with fidelity and naturalness, you revealed a true dramatic instinct and a versatility of unusual quality, and I consider your recital of Sir Barrie's play second only to hearing Miss Adams, with her company of actors, in a full dramatic performance of Peter Pan.

Private schools, literary and dramatic clubs ought to welcome the opportunity of hearing you. For children the entertainment would be delightful.

DISCUSSES BABY'S RIGHTS

Mrs. L. E. White Gives Splendid Talk At Union Baby Week Services Thursday.

Mrs. L. E. White, who was one of the speakers at the Baby Week Union Prayer services last Wednesday evening at the First Methodist church, gave a splendid talk on "Baby's Rights." This talk was the recipient of so much favorable comment from those present at the meeting that the Democrat-Forum procured a copy of it for publication as particularly appropriate for Baby Week.

Baby's Rights.

Blessed be the baby, who reigns always in our hearts. We are doing homage to him throughout our land this week. In the large cities the members of the "Little Mother's League" are fiercely and loyally fighting for baby's rights.

In many town and even rural districts are being held clinics and clean food campaigns. Nurses, doctors, mothers, are studying and thinking how to save the lives of more babies, and how to have better babies.

We all love the baby. Yes, we feel a God-like protection as we look upon his dimpled sweetness or touch his fragile body. Yet the naturalist tells us that all animals have the same desire to fondle and protect. But our human mite of potentiality has rights beyond those of the animal—and not one of us is freed from the necessity of granting these rights, if not to his own baby—then to anybody's baby.

Baby has the right to God-fearing, country-loving, community - serving parents.

Baby has the right to be born of love.

Baby has the right to tender, joyous care before he is born.

Such a mother is one who wears right clothing, thinks right thoughts, and cares for her body as for the indwelling of the Holy spirit.

Such a father is one who takes trouble to shield and protect and love the mother to be, and is himself manly in all respects.

Baby has the right to birth registration.

Baby has the right to be breast fed. Ten bottle babies die to one breast fe' But sometimes baby must be fed artificially, then he has the right to a breast shaped nipple, sterilized bottles and sterilized food.

Baby has the right to have pure water to drink, an excellent opportunity for a father to show his love.

Baby has the right to regular feeding times.

He has the right to clean, comfortable clothing, its warmth suited to the weather.

Baby has the right to a bed by himself.

He has the right to regular hours of sleep.

Baby has the right to a quiet sunshut-out air-let-in sleeping room. Or better still, an outdoors sleeping place.

Baby has the right to a bath every day.

Learn from a nurse or doctor just how to give the bath, just how to use the boracic acid wash.

Baby has the right to clean streets and alleys with no fly or mosquito breeding places. A fly is baby's worst enemy.

Baby has the right to parks and playgrounds. Make each home beautiful, make your city beautiful—where mothers and babies are wanted, where God's out-of-doors and man's ingenious conveniences may strengthen the unborn and preserve the health of the mother.

Protect the laboring mother for the sake of her children. Men cannot overestimate their duty to the next generation.

These foregoing rights are in the nature of "Do's," there are also some "Dont's" which are baby's rights from his guardians and from his community.

Baby has the right NOT to be doped with patent medicines.

Baby has the right NOT to be kissed in the mouth.

Baby has the right NOT to be given pacifiers, comforters, and dirty playthings.

Baby has the right to be protected from thumb sucking, which ruins the shape of mouth and helps to cause adenoids.

Baby has the right NOT to have people sneeze or cough in his face, not to be rocked or bounced nor played with directly after eating.

Baby has the right to remain away from picture shows or to be exposed to dirt or disease.

Who will deny these rights to his Highness—the baby? Who will not think it worth while to study to be able to grant to baby his rights? The Master said, "Except ye become as a little child ye can in no wise enter the kingdom of heaven." So we think more of childhood and babyhood than in olden times, and wisely, for we who bear, who father, who teach or care for babies are dealing with souls and building for Eternity.

Then as parents let's arise to our duty to our own babies and also to our neighbor's baby. Let us not be lazy or indifferent, let us be such parents and teach our young people the dignity and wonder of child-building with God and for Eternity.

Let us as individuals, as communities, do "our bit" lest we cease to be. We must save our babies. The cost to bear him is too great not to so desire, and as the din of the terrible war reaches us, nay clutches our hearts for the welfare of our almost-grown babies, let us not falter in our efforts to save the little ones, nor fail to serve, to hope, to pray, for this is the only way war and disease are conquered and cease to be.

You who have not borne children, you also may not shirk, you too may know and teach others, you can help by home and city sanitation, visiting nurses, "Little Mothers Leagues," junior health officers, instruction to boys and girls, and thereby know that every baby has a chance for life, not death because of you

Carlyle says of children," Good Christian people, here lies an inestimable loan; take all heed thereof; in all carefulness employ it, for with high recompense or else with heavy penalty will it one day be required back."

And so I beg that throughout this Baby Week and the years to come, you will think earnestly on these things, and give to every baby so much as lieth in your power — his rights.

A FAIR CROWD ATTENDS MEET

BRECKENRIDGE, ST. JOSEPH AND MARYVILLE HAVE MOST POINTS.

IMPORTANT CHANGES IN H. S. ASSOCIATION

Preliminary Rules, Election of Officers, and Entrance Fees Up For Discussion.

At 3:30 o'clock Breckenridge, St. Joseph and Maryville were the three leading schools in the track scores. Breckenridge had 16 points; St. Joseph had 7 points, and Maryville had 5 and 1-3 points.

A fair sized crowd is attending the Northwest Missouri Inter-High School track meet upon the Normal field this afternoon. The grandstands are fairly well filled and a glance over the crowd after a week of rains and muddy roads makes one consider what might have been.

The track is in good condition in spite of the rains. For the dashes it is holding out well, but for the long distance runs a little difficulty is anticipated. The events are under the management of Walter Hanson, the Normal coach.

The events, which had been decided at 3 o'clock are:

100-yard dash, preliminaries—First heat, Yehle of Maryville and Lewis of Bethany; second heat, Watson, St. Joseph Central and Castle of Savannah; third heat, Sellers of St. Joseph and Medley of Plattsburg.

100-yard dash, finals—Sellers, St. Joseph, first; Medley, Plattsburg, second; Johnson, Ridgeway, third and Rea, Savannah, fourth. Time, 11 flat.

Shot put—Royston, Pattonsburg, first; Layman, Bethany, second; Trosper, Breckenridge, third and Booth, Cainsville, fourth. Distance, 38 ft. 6¼ in.

120-yard high hurdles—preliminaries. First heat, Cash of St. Joseph and Glick of Breckenridge; second heat, Castle, Savannah, and V. Saville, Grant City.

120-yard high hurdles, finals—Castle, Savannah, first; Glick, Breckenridge, second; V. Saville, Grant City, third. Cash of St. Joseph Central was second but was disqualified because he knocked down four hurdles.

Discus throw—Fries, Mound City, first; Trosper, Breckenridge, second; Bealls, St. Joseph, third, and York, New Hampton, fourth. Distance, 96 ft. 2½ in.

Pole vault, final—Glick and McPeek of Breckenridge tied for first place; Ralph Yehle, Maryville third, and Christenson, Bolckow, Booth of Cainsville, E. Yehle, Maryville tied for fourth. Height ,10 ft. 4 in.

Results of Board Meeting.

The executive committee of the Northwest Missouri High School association met this morning at the State Normal school in their annual meeting.

The first business taken up was the question of qualification in the preliminaries. A motion was passed not to allow any school to qualify more than one man for the finals in any track event; and if any school wins first and second place in the prelim-

The schools who are not among "those present" are: St. Joseph Benton, Chillicothe, Trenton, Liberty, Skidmore and Maysville.

Eighteen schools are taking part in the track events on the Normal field today. They are:

Class A—St. Joseph Central.

Class B—Bethany, Maryville, Mound City, Pattonsburg, Savannah, Tarkio, and Plattsburg.

Class C—Bolckow, Breckenridge, Gallatin, Guilford, Maitland, New Hampton, Ridgeway, Rosendale and Cainsville.

The track contestants and the school superintendents were among the guests at the May morning breakfast given by the Y. M. C. A. in the Normal library this morning.

* * *

A checking system is in force out at the track today for the purpose of enabling the contestants to deposit their valuables in a safe place. Hitherto, much trouble has been caused by the lack of a place to check belongings.

* * *

An attraction which vies with the track meet is the sight of Coach L. J. Schultz of Maryville and his twin brother Leo C. Schultz, athletic coach at Richmond, Mo. The resemblance of the two is remarkable. An amusing incident is related to have happened in a local barber shop. Mr. Schultz of Maryville, who is called "Prof." by his friends, went into the barber shop for a shave. The barber knew him at once and said, "Well, what will you have, Prof?" A few minutes later, after Schultz No. 1 had departed, the twin brother appeared in the same shop. The barbers looked at each other in amazement. Finally one of them recovered himself enough to say, "Well, what do you want this time, Prof?"

* * *

The track meet has lost one of its most picturesque characters through the death of Col. W. T. Jenkins, former editor of the Platte City Landmark. Col. Jenkins always headed a delegation from Platte City to the literary contests and track meet. He was present at every meet from the time it was first established.

* * *

Coach Hanson met the track men in the gymnasium this morning and gave out the numbers. After this all contestants attended the meeting of the executive board.

WILL RAISE $300

COMMERCIAL CLUB TO FINANCE COMMUNITY CANNING CENTER.

WOMEN TO CO-OPERATE

Miss Hettie Anthony Will Seek Aid of Women's Clubs to Take Over Management of Center.

About $300 will be raised immediately for the purpose of buying equipment for the food canning center which will shortly be established in Maryville.

This was decided at a meeting of the Factory and Community Interest committee consisting of Harvey L. Haines, chairman; H. L. Raines, and Will Phares, and of the publicity committee, consisting of Mr. Haines, chairman, Ed Keck and Albert Kuchs, at the Commercial club rooms yesterday afternoon.

The committees after conferring with Miss Hettie Anthony, head of the Home Economics department at the State Normal school, decided that a canning center in Maryville would be both advantageous and necessary to the proper conservation of food in the war campaign, and they voted to collect the money and to establish the center as soon as possible.

Miss Anthony's plan is to interest the women's clubs of the city in the movement and to have them take charge of the center. The Commercial club for its part will furnish the equipment and financial support.

The management of the canning center as well as its location are matters that will have to be settled later. Miss Anthony hopes to stimulate the necessary amount of interest and to put the scheme through while the necessity for the preservation of early fruits and vegetables is pressing.

A new and perfected process of canning will be used at the canning center and it is estimated that twelve women can preserve 1,000 jars of fruit in a day. Each woman may bring her fruit or vegetables and her cans to the center and instructors will oversee the work and assist in the canning

The plans as yet are not definite, the whole affair depending upon the amount of enthusiasm shown by the women of the various clubs.

RICHARDSON RE-ELECTED

Will Serve as Head of State Normal School for Next Biennial Period —Board Reorganizes.

President Ira Richardson of the State Normal school was re-elected for the next biennial period at the meeting of the Board of Regents held at the Normal yesterday afternoon. President Richardson has already served three years as president of the school and his re-election is the highest kind of a tribute to his executive ability and to his success as head of the Normal school.

The reorganization of the board of Regents at its first meeting since the new members of the board were chosen by Governor Gardner, was perfected, and all of the former officers, excepting the treasurer were re-elected. They are as follows: President, W. A. Blagg; vice-president, George N. Gromer, Pattonsburg; secretary, W. A. Rickenbrode, and treasurer, J. D. Richey of the Nodaway Valley Bank.

The members of the Board of Regents present at the meeting yesterday afternoon were: W .A. Blagg, Maryville; W. H. Weightman, Mound City; Charles L. Mosley, Savannah, and George N. Gromer, Pattonsburg, and Uel Lamkin of Jefferson City, state superintendent of schools.

WORK IN CONGRESS

CONSIDERATION OF WAR MEASURES OCCUPIES STATESMEN.

THE RECENT ARMY BILL

Mr. Van Cleve Enumerates Forces That Were Behind the Conscription Measure.

(By W. C. Van Cleve)

Washington, D. C., May 2.—The consideration of war measures continues in Congress. They are numerous already and more are coming. There are bills to raise an army, bills to facilitate the work of the navy in various ways, bills to authorize the shipping board to build food carrying ships by the scores, a bill called the espionage bill, to limit the publication of information and criticism during the war, bills to regulate and fix the prices of foodstuffs, bills authorizing the President to take over and operate railroads, telegraph and telephone lines and so on.

* * *

The so-called army bill has passed both House and Senate in different form and must now go to conference before the final law will be worked out. The Senate passed the war department bill with some changes and the House passed the bill reported from the committee on military affairs with amendments. By a vote of 313 to 109 the volunteer provision was stricken from the House committee bill and conscription was inserted in lieu thereof. Many members who had pleaded eloquently in the cloak rooms for the volunteer system and had vigorously applauded volunteer speeches during the debates, climbed in the band wagon when they found conscription was sure to carry and voted for it. A number of them openly admitted that they had voted against their convictions.

They can't be blamed for that altogether. Most members want to retain their seats in Congress and the remarkable campaign of the propagandists was what would be termed on the battle front "a withering fire." It was too hot for them. Big newspapers carried full page advertisements, double leaded editorials and scare heads. Thousands of letters and telegrams were received each day, some demanding "universal training," some "universal service" and many of them threatening and abusive.

The bill which men so zealously espoused, though they had never seen it, is entitled "a bill to authorize the President to increase temporarily the military establishment of the United States." It provides no permanent policy and has nothing to do with universal training or universal service beyond the duration of this war. As proposed by the war department, the bill provided that only those be-

The other appointments made were:

City weighmaster, Claud Stults.

Mayor Robey will appoint George Craig for dog enumerator.

About Vehicle Ordinance.

A petition requesting the council to re-consider the vehicle tax ordinance and to permit the petitioners an opportunity to be heard on the ordinance was presented to the council but no one appeared at the meeting last night to voice their opinion. The petition stated that the ordinance was unjust. The ordinance will now stand and the tags were ordered last night. Only $11 of this tax has been collected so far.

The city attorney was ordered to draw an ordinance for a sidewalk on East side of Main street from 6th to Park avenue.

A sidewalk ordinance was passed ordering a sidewalk on the north side of Franklin street between Main and Market streets.

A number of other sidewalk ordinances will come up at the next meeting of the council.

An ordinance requiring the Hanamo Telephone company to remove their poles from Buchanan to Vine streets on Third was adopted. The company is to do the removing within sixty days.

tween the ages of nineteen and twenty-five should be liable to conscription. Neither the Senate nor the House would stand for that. The Senate changed the age limits to twenty-one and twenty-seven and the House changed the age limits to twenty-one and forty.

The big banks, the financially controlled newspapers, the railroads, the munition makers, the copper and coal mine operators and the numerous industrial institutions urged the bill as originally drawn with a fervor almost violent. It enabled them to continue their business without disturbance.

With only school boys and young fellows to be drawn upon, big business had little to fear.

There is a considerable difference between the House and Senate bills on this score yet which must be settled before the bill can become a law. It may result in a compromise fixing the ages at twenty-one to thirty-five although the House membership was almost unanimous in demanding the forty year limit.

Among other important differences in the two bills passed is a provision in the Senate bill providing that not to exceed four infantry divisions may be recruited by volunteer enlistment, provided that there shall be no enlistments in these forces of men under the age of twenty-five. This provision in the Senate bill is for the benefit of Col. Roosevelt and other distinguished gentlemen who desire to raise a force of volunteers for service in France. The House refused to accept such an amendment. Another provision in the Senate bill authorizes the President to fix such regulations as he may see fit for the prohibition of the sale and use of liquor and prohibits the establishment of immoral resorts near training camps.

The House very wisely struck from the bill the appropriating clause authorizing the Secretary of War to expend in his discretion the stupendous sum of $3,000,000,000 to carry into effect the provisions of the bill. The appropriation has been made in a separate bill passed today in which specific amounts are designated for specific purposes. In doing so, a little matter of about $200,000,000 was deducted from the original amount called for as unnecessary. The proposal to give blanket authority to any one official to expend three billion dollars was beyond the limit of the most loyal.

Under the provisions of both Senate and House bills authority is given to recruit both the regular army and the national guard by volunteers provided that "whenever the President decides that they can not effectually be so raised or maintained, then by selective draft." The other forces are to be "raised and maintained by the selective draft exclusively." This of course does not apply to Col. Roosevelt's volunteer force.

* * *

The word, "Selective" though a very simple word is one rather indefinite in connection with the draft. Numerous efforts were made to define it in specific terms but about the best definition heard was that "selective means selective." It suggests a number of exemptions to be determined by the President as he may deem desirable. The bill authorizes a number of exemptions including members of Congress and the executive and legislative officers of both federal and state governments; certain religious organizations whose creed forbid participation in war; regular or duly ordained ministers of religion. He is also authorized to exclude from the draft "for partial military service only" certain Government employees, such as railway mail clerks, custom house clerks and workers employed in armories, arsenals and navy yards, and other persons engaged in industries including agriculture.

The original purpose of the war department was to effect a nation-wide registration or census of those of conscript liability which the department estimated would require several months. It is now stated, however, that, when the bill becomes a law, the President will designate a day by proclamation on which all those of the ages finally agreed upon must present themselves at the places designated and register their names, addresses, etc. It is now said that this is to be done at the various post offices and that the postmasters will be supplied with cards for the purpose. The publication of the proclamation will be considered sufficient notice to all and those who shall wilfully fail or refuse to so present themselves for registration will be subject to fine and imprisonment.

The House bill also carries a provision prohibiting the payment of bounties and the furnishing of substitutes.

HOME BOYS LOSE

BEARCATS GO DOWN TO DEFEAT TO WILLIAM JEWELL 15-2.

SCORE 2 IN THE NINTH

Jewell Made 12 Hits — Todd of the Normal Made Star Play of the Game.

The Maryville Normal "Tombstones" formerly the Bearcats went down to an ignominious defeat at the hands of William Jewell College yesterday afternoon in what was scheduled as a baseball game. It proved to be a track meet, with the Jewellites doing most of the running. The final score was 15-2 in favor of the visitors.

Incidentally Arthur Clinton McKinney, Jewell's star boxman, turned in a no-hit game. The two runs scored off his delivery came as the result of errors on the part of his teammates and were entirely unearned. He gave only two walks and hit two batsmen. He also struck out twenty-two men, almost equalling his world's record performance of twenty-five struck-out batsmen in a nine-inning game.

Contest For One Inning.

For one inning the game looked like it might be a real contest. Jewell got two men on bases in their half of the inning but failed to score. In the home half, Wagers opened by striking out, a performance that during the rest of the game became contagious, also monotonous. Van Cleve drew a pass and went to second when Ferguson was hit by a pitched ball. Bird laid down a dinky little roller in the direction of the pitcher's box which McKinney fumbled long enough for all hands to be safe. With the bases full the Jewell catcher threw the ball to center field and Van Cleve and Ferguson scored. This constituted all the run-making for Maryville.

In the next inning the visitors got the two runs back with four more to spare. They got one more in the third, five in the fifth, two in the eighth, and one in the ninth.

As For Maryville.

As for Maryville there was nothing for the crowd to get excited over. They succeeded in getting two men on in the ninth but the rally was short-lived. As a rule the men carried bats with them to the plate but they appeared to be for ornamental or decorative purposes. Only in one inning did less than two men strike out and in five innings the entire side was retired on strikes.

Of the work in the field of the "Tombstones" (so christened because of their general lifelessness), the less said the better. The infield was woefully off color and the clean fielding of a ball was the exception rather than the rule. In justice to them, however, let it be said that the unfamiliar ground made fielding very difficult. The writer counted thirteen stolen bases for Jewell, but he is human and may have missed some.

One Bright Spot in Game.

One bright spot of the game was the fielding of the Normal outfield. All three men turned in good catches. Todd made the star play of the game with a running catch of a liner to left center.

Jewell made twelve hits, five of them of the scratch variety. The other sad details we omit. Comparison of the box scores of the two teams is odious.

The batting orders:

Maryville—Wagers 2b, Van Cleve, p, Ferguson ss, Bird 3b, Allison rf, Sawyers c, Garard lf, Todd cf, Scarlett 1b. Corum was substituted for Wagers in the ninth.

William Jewell—Allen lf, Lee 2b, Bell 1b, Evans cf, Matheney ss, Finney c, Billings 3b, Hubbard rf, McKinney, p.

WHO WILL LEAD TROOPS?

Men of Executive Ability are Needed Right Now for the First of the Volunteer Officers.

Now that conscription is a certainty and will soon be enforced, it is up to the people of this city to decide whether their troops will be led by their own citizens or by officers from other cities or other states.

It is planned now that troops from different localities will be commanded by officers from their own city. It is up to the men of this city now to see that there is a sufficient number of officers trained to meet the demand. Are we going to have someone from another city or from another state leading our troops?

A camp will be held nearby to fit these men to be officers. All expense incident to attendance will be borne by the government.

A college education is valuable but is not essential. Any man with experience in executive positions is wanted, whether at the head of a business or at the head of an important department in a business.

Such men are needed and are needed especially right now for the first volunteer officers.

Applications are being received by mail or in person at Room 502, Military Training Camp Association, at the War Department, Chicago.

Applicants may enter any day from May 8 to May 14.

Recruiting officer for reserve corps in the town of Maryville is in charge of Roy Curfman. He will explain all details.

Who are the men who are going to lead the troops of our city?

Will Hold Presbyterian Day.

Presbyterian Day in connection with Parents Day will be held at the First Presbyterian church Sunday, May 13. It is the aim of the pastor to have every Presbyterian present at the morning and Sunday school services of the church, and especial services will be held at both the Sunday school and the church hours.

NEW PERFECTION OIL COOK STOVE

With the Long Blue Chimney

Bakes your cakes evenly. You turn the flame high and make an omelet in ten minutes or—very low and bake a roast for hours. The heat stays at just the temperature you like. You don't need to watch it.

Hot bread in the morning. That's the time you will like the New Perfection. The oven takes ten minutes to heat through. Hot rolls for breakfast or bake your bacon. Don't make an extra big fire as on a coal or wood range, and wait, and wait for it to heat.

Turn it right off when you are through. Saturday baking doesn't heat the kitchen. The long blue chimney concentrates the heat. Keeps you cool and the dinner boiling. It keeps an even temperature; it keeps clean and the kitchen clean. It keeps fuel cost down, too. Saves one-third. Easy to fill; easy to light; easy to rewick.

Look for triangle trade-mark. Ask your dealer to demonstrate this stove.

inary heats, one of its men shall be eliminated and the next two schools in order shall qualify except in the hurdles, where only one other school shall qualify. This measure was decided on for the purpose of keeping one school from taking first and second places in any event.

Want Closer Organization.

A closer organization of the High schools of the district for purposes of co-operation in athletic and literary events was also discussed. For this reason, the organization was re-arranged. It was decided that the terms of all officers holding over be closed and that a president, vice-president, secretary, treasurer, and three members of the Board of Control be elected for one, two, and three years respectively. The president and secretary are to be ex-officio members of the board of control.

Membership Fees.

The question of membership fees was then taken up. A motion carried to charge a permanent entrance fee of $2 for first class schools, $1.50 for second class schools, and $1 for third class schools. An annual fee of 25 cents will also be charged each school for each of the events, football, basketball, baseball, literary contests, and track in which such a school shall contest. And finally, that the State Normal school of Maryville shall pay 25 cents annually for each school in the association.

After some discussion Ridgeway was awarded the Class C cup instead of Breckenridge and the change will be made without delay. Some mistake in counting points resulted in this change.

This Year's Officers.

In accordance with the new rules for the election of officers the following were chosen for the coming year: President, Superintendent Duncan of New Hampton; vice-president, Supt. P. C. Calloway, Mound City; secretary, Supt. Daugherty, of Bethany; and treasurer, Prof. R. M. Magee of Maryville.

The members of the Board of Control who will act with the president and secretary of the organization are: Supt. G. H. Beasly, Liberty, for three years; Supt. Ross of Pattonsburg for two years, and Supt. Boyd of Albany for one year.

WILL PRESENT "PETER PAN"

Miss Caryl Cook of Boone, Ia., a Noted Reader Will Appear at the Christian Church May 10.

On Thursday evening, May 10, the people of Maryville are to enjoy a rare treat in the presentation of the charming play, "Peter Pan," by Miss Caryl Cook, at the First Christian church. Miss Cook, whose home is in Boone, Ia., is a recognized success in dramatic circles, having spent many years in study, for several years a protegee of Madam Ewine of New York City, who is one of the finest dramatic instructors in America.

Miss Cook portrays such amazing versatility in presenting the characters of the "Pirate King," "Peter" and "Wendy" that her entire audience seems to be transported into Fairyland. She has appeared in the Art Institute, Chicago, and Carnegie Hall in New York City. The operatic score, with its bewitching melodies, will be played during the reading.

A comment from Mary B. Cleveland, executive secretary, the Civic Forum, New York City, follows.

I have seen Maude Adams in her famous role many times, and had always believed that the bewitching charm of Peter Pan was exclusively Miss Adams' creation, but now I know that you too have discovered Peter's secret of "eternal youth."

In your transmission from the little Spirit Boy to Captain Hook, then to Wendy, all with fidelity and naturalness, you revealed a true dramatic instinct and a versatility of unusual quality, and I consider your recital of Sir Barrie's play second only to hearing Miss Adams, with her company of actors, in a full dramatic performance of Peter Pan.

Private schools, literary and dramatic clubs ought to welcome the opportunity of hearing you. For children the entertainment would be delightful.

New equipment, new lights, new front, new organization, new manager, and new name — these are the things that have transformed the old Fern theatre into the New Electric, which opens Monday for its first show under the direction of George Yantis.

It has the added advantage of belonging to a circuit and will have the latest and best pictures at popular prices. Mr. Yantis invites all of his friends to try the new theatre.

DISCUSSES BABY'S RIGHTS

Mrs. L. E. White Gives Splendid Talk At Union Baby Week Services Thursday.

Mrs. L. E. White, who was one of the speakers at the Baby Week Union Prayer services last Wednesday evening at the First Methodist church, gave a splendid talk on "Baby's Rights." This talk was the recipient of so much favorable comment from those present at the meeting that the Democrat-Forum procured a copy of it for publication as particularly appropriate for Baby Week.

Baby's Rights.

Blessed be the baby, who reigns always in our hearts. We are doing homage to him throughout our land this week. In the large cities the members of the "Little Mother's League" are fiercely and loyally fighting for baby's rights.

In many town and even rural districts are being held clinics and clean food campaigns. Nurses, doctors, mothers, are studying and thinking how to save the lives of more babies, and how to have better babies.

We all love the baby. Yes, we feel a God-like protection as we look upon his dimpled sweetness or touch his fragile body. Yet the naturalist tells us that all animals have the same desire to fondle and protect. But our human mite of potentiality has rights beyond those of the animal—and not one of us is freed from the necessity of granting these rights, if not to his own baby—then to anybody's baby.

Baby has the right to God-fearing, country-loving, community - serving parents.

Baby has the right to be born of love.

Baby has the right to tender, joyous care before he is born.

Such a mother is one who wears right clothing, thinks right thoughts, and cares for her body as for the indwelling of the Holy spirit.

Such a father is one who takes trouble to shield and protect and love the mother to be, and is himself manly in all respects.

Baby has the right to birth registration.

Baby has the right to be breast fed. Ten bottle babies die to one breast fe' But sometimes baby must be fed artificially, then he has the right to a breast shaped nipple, sterilized bottles and sterilized food.

Baby has the right to have pure water to drink, an excellent opportunity for a father to show his love.

Baby has the right to regular feeding times.

He has the right to clean, comfortable clothing, its warmth suited to the weather.

Baby has the right to a bed by himself.

He has the right to regular hours of sleep.

Baby has the right to a quiet sunshut-out air-let-in sleeping room. Or better still, an outdoors sleeping place.

Baby has the right to a bath every day.

Learn from a nurse or doctor just how to give the bath, just how to use the boracic acid wash.

Baby has the right to clean streets and alleys with no fly or mosquito breeding places. A fly is baby's worst enemy.

Baby has the right to parks and playgrounds. Make each home beautiful, make your city beautiful—where mothers and babies are wanted, where God's out-of-doors and man's ingenious conveniences may strengthen the unborn and preserve the health of the mother.

Protect the laboring mother for the sake of her children. Men cannot overestimate their duty to the next generation.

These foregoing rights are in the nature of "Do's," there are also some "Dont's" which are baby's rights from his guardians and from his community.

Baby has the right NOT to be doped with patent medicines.

Baby has the right NOT to be kissed in the mouth.

Baby has the right NOT to be given pacifiers, comforters, and dirty playthings.

Baby has the right to be protected from thumb sucking, which ruins the shape of mouth and helps to cause adenoids.

Baby has the right NOT to have people sneeze or cough in his face, not to be rocked or bounced nor played with directly after eating.

Baby has the right to remain away from picture shows or to be exposed to dirt or disease.

Who will deny these rights to his Highness—the baby? Who will not think it worth while to study to be able to grant to baby his rights? The Master said, "Except ye become as a little child ye can in no wise enter the kingdom of heaven." So we think more of childhood and babyhood than in olden times, and wisely, for we who bear, who father, who teach or care for babies are dealing with souls and building for Eternity.

Then as parents let's arise to our duty to our own babies and also to our neighbor's baby. Let us not be lazy or indifferent, let us be such parents and teach our young people the dignity and wonder of child-building with God and for Eternity.

Let us as individuals, as communities, do "our bit" lest we cease to be. We must save our babies. The cost to bear him is too great not to so desire, and as the din of the terrible war reaches us, nay clutches our hearts for the welfare of our almost-grown babies, let us not falter in our efforts to save the little ones, nor fail to serve, to hope, to pray, for this is the only way war and disease are conquered and cease to be.

You who have not borne children, you also may not shirk, you too may know and teach others, you can help by home and city sanitation, visiting nurses, "Little Mothers Leagues," junior health officers, instruction to boys and girls, and thereby know that every baby has a chance for life, not death because of you

Carlyle says of children," Good Christian people, here lies an inestimable loan; take all heed thereof; in all carefulness employ it, for with high recompense or else with heavy penalty will it one day be required back."

And so I beg that throughout this Baby Week and the years to come, you will think earnestly on these things, and give to every baby so much as lieth in your power — his rights.
